Acknowledges that the current size, scope and cost of local government in Illinois may overburden taxpayers, negatively impact our economy, discourage civic engagement, reduce transparency, and impair the efficient delivery of public services. Supports efforts: (i) to examine the existing landscape of local and State government to determine how more effective and efficient models can be developed; (ii) to improve the quality, cost, and accountability of government services at all levels through cooperation, collaboration, partnerships, shared services, and, if appropriate, through the consolidation or elimination of government agencies; and (iii) to eliminate the duplication of services and to enact measures that will streamline government operations across the State.

Calls for a measurable improvement in Fly Quiet compliance no later than January 1, 2017, with further improvements to follow. Urges the Aviation Department of the City of Chicago to select a trusted third party that represents the interests of O'Hare International Airport's noise neighbors and to share the information enumerated in this resolution with this third party. Urges Congress to direct the clarification of national food labeling standards. Shows support for meaningful consumer education and for measures that provide consumers with a reasonable means of identifying food products that may or may not have been developed using bioengineering. Encourages food manufacturers to further study ways to inform consumers about food choices, as long as the information provided is truthful and not misleading. Commends the generation of new CNEL data as a way for the communities around O'Hare International Airport to better understand the impact of airport noise on their communities and quality of life. Commends the City of Chicago for supporting P.A. 99-202 and calls upon it to continue to take steps to implement the law and generate the data mandated by this Public Act. Calls upon the Federal Aviation Administration to assist the City of Chicago in the implementation of P.A. 99-202, including the siting, re-siting, and re-equipping of noise monitoring stations, and the generation and publication of data generated by these stations in conformity with CNEL professional standards. Re-affirms the noise contour maps that cover areas surrounding O'Hare Airport, and describes that the impacts of noise upon these communities, should be based upon the best and newest possible data and technology. Calls

upon the FAA to use new CNEL data to revisit the existing noise contour maps that cover areas surrounding O'Hare Airport, and to promptly redraw these maps as new airport noise data is submitted.

Urges the Chicago Department of Aviation to develop a more comprehensive, aggressive Fly Quiet program, including the development of a Continuous Descent Approach, a review of Noise Abatement Department Procedures, the act of maintaining at least 2 operating runways and leaving a third runway open during Fly Quiet hours, including at least one diagonal runway, and the operating use of a Runway Rotation Plan, to disperse airport noise effects during Fly Quiet hours. Urges the Chicago Department of Aviation to revise and strengthen the Fly Quiet Program Manual and operating procedures to create a pathway toward partial compliance with Fly Quiet during non-optimal weather conditions, and better familiarity between air traffic controllers and Fly Quiet principles. Recommends that the Fly Quiet Program Manual should be studied and revised at regular, periodic intervals; these reviews should include, but not be limited to, the assessment of departure paths and headings from O'Hare's newest runways and determine the best runway configurations, with the goal of directing flights over less-populated areas and reducing population impacts. Urges that the stakeholders should work together to study and implement Fly Quiet Program Manual voluntary operating procedures outside of normal Fly Quiet hours. Urges the Chicago Department of Aviation to make every effort to work with its private partners to discourage and phase down the use of older and noisier aircraft, including but not limited to the MD-80 and DC-10 aircraft, on a 24/7 basis but especially during Fly Quiet hours. Urges the Chicago Department of Aviation to enhance the report card program to measure and publicly report on the noise mitigation performance metrics posted by airlines and air cargo operators throughout the 24/7 day, but especially with respect to operations during Fly Quiet hours.

States our belief that eliminating the first quarter cash crunch of small and mid-market businesses paying unemployment taxes by allowing for quarterly payments based upon the accrued obligation is a pro-business public policy move. Calls upon the Illinois Department of Employment Security to implement an optional quarterly payment system for taxpayers pursuant to all existing statutory authority as quickly as possible.

States the belief that O'Hare International Airport's noise monitoring technology should be coupled with artificial-intelligence software to match the noises perceived by each station at each time to specific individual flight operations and the operations of individual airlines and to gauge the compliance of each individual airline firm with the guidelines set down in the Fly Quiet Program. Urges the Aviation Department of the City of Chicago to select a trusted third party that represents the interests of O'Hare International Airport's noise neighbors and to share the information enumerated in this resolution with this third party. Urges the Aviation Department and the trusted third party to collaborate to develop a rank-ordered chart of each airline firm's compliance with Fly Quiet Program guidelines. Urges the Aviation Department and the trusted third party to give the charts explicit and formal consideration as elements in any decisions made, subsequent to the start of the generation of this data and these charts, on the reallocation of departure gates and support facilities at O'Hare International Airport.

Congratulates Governor Rauner on his leadership and vision in criminal justice reform. Calls upon the members of the Illinois State Commission on Criminal Justice and Sentencing Reform to deliberate and develop a 21st century method of implementing a sentencing review regime that alleviates taxpayers of the burden of housing and feeding inmates that no longer pose any threat to public safety and are truly remorseful for their crimes.

Urges the General Assembly to implement numerous budgeting practices to standardize the annual budget process. Urges the General Assembly to not approve the expenditure of funds for new programs and services without providing an examination of the cost/benefit analysis of said program or service and a finding that the addition of the new program or service provides significant long-term benefit to the State's fiscal health by realizing cost savings or meets an overriding public policy need. Urges the General Assembly to conduct such an analysis at the committee level, with each substantive and appropriations committee creating a working subcommittee to consider such measures and evaluate the aforementioned criteria.

Urges the General Assembly to apply any revenues which exceed expenditures to the payment of any old bills that are more than 45 days past the due date, including General Revenue Fund and non-General Revenue Fund expenditures, at the close of each fiscal year and

to direct such revenues to the Budget Stabilization Fund if there are no pending bills over 45 days past the due date. Urges the General Assembly to provide for the use and maintenance of the Budget Stabilization Fund by appropriating any excess amounts "off the top" of estimated available revenues to the Budget Stabilization Fund should the growth in the annual revenue estimate exceed 3% from the previous year's estimated revenues and applying any revenues which exceed expenditures to the Budget Stabilization Fund should no unpaid bills remain due over 45 days at the close of each fiscal year.

States the belief that it would be inappropriate for members of the General Assembly to receive their salaries in a timely manner when all other State employees are not being paid on time and that the expenditure of State funds for salaries to members of the General Assembly should not be made until such expenditure is made for the salaries for all State employees.

HR-1023 WINGER - MCAULIFFE.

Urges the Chicago Department of Aviation to develop a more comprehensive, aggressive Fly Quiet program, including the development of a Continuous Descent Approach, a review of Noise Abatement Department Procedures, the act of maintaining at least 2 operating runways and leaving a third runway open during Fly Quiet hours, including at least one diagonal runway, and the operating use of a Runway Rotation Plan, to disperse airport noise effects during Fly Quiet hours. Urges the Chicago Department of Aviation to revise and strengthen the Fly Quiet Program Manual and operating procedures to create a pathway toward partial compliance with Fly Quiet during non-optimal weather conditions, and better familiarity between air traffic controllers and Fly Quiet principles. Recommends that the Fly Quiet Program Manual should be studied and revised at regular, periodic intervals; these reviews should include, but not be limited to, the assessment of departure paths and headings from O'Hare's newest runways and determine the best runway configurations, with the goal of directing flights over less-populated areas and reducing population impacts. Urges that the stakeholders should work together to study and implement Fly Quiet Program Manual voluntary operating procedures outside of normal Fly Quiet hours. Urges the Chicago Department of Aviation to make every effort to work with its private partners to discourage and phase down the use of older and noisier aircraft, including but not limited to the MD-80 and DC-10 aircraft, on a 24/7 basis but especially during Fly Quiet hours. Urges the Chicago Department of Aviation to enhance the report card program to measure and publicly report on the noise mitigation performance metrics posted by airlines and air cargo operators throughout the 24/7 day, but especially with respect to operations during Fly Quiet hours.
